Pravasini Bhuyan

Frontend Developer — Kolkata, India

📞 +91 8249182767 — ✉ pravasini.prava08@gmail.com — ⬛ GitHub — 🌐 Portfolio — 💼 LinkedIn

Professional Summary

A highly competent front-end developer, I have hands-on project experience in React-based web development. I can create engaging user interfaces and responsive web applications with the best coding practices.

Education

B.Tech in Computer Science Engineering   **2022**
BPUT Odisha, Bhubaneswar

Diploma in Information Technology   **2018**
Government Polytechnic Bhubaneswar

Work Experience

Frontend Developer — Broadifi Tech Private Limited

July 2022 - Present

- Conduct rigorous feature testing, reducing post-release bug reports by approximately 30% through proactive issue identification and resolution.
- Collaborate closely with backend developers to integrate dynamic data, improving overall application performance by an estimated 25%.
- Implemented responsive design principles, resulting in a 40% increase in mobile user engagement across our web applications.

Projects

Mockshala

(Link) — *React, Typescript, Ant Design*

- Developed a comprehensive website providing mock tests for various competitive exams and skill assessments.
- Implemented an intuitive user interface for test-taking, result analysis, and progress tracking.
- Integrated responsive design principles, ensuring seamless access across desktop and mobile devices.

Ubizia

(Link) — *NextJS, Material UI, Getstream, Jotai*

- Contributed to the development of an online NFT buying platform, facilitating digital asset transactions.
- Implemented user authentication, NFT browsing, and secure purchasing functionality.
- Integrated Material UI for a consistent and modern design language across the platform.
